PREPARING FOR AN INVASION BUSINESS SECTION THREATENED

Local Firemen Put Up a Great Fight-- Fire Loss Totals \$50,000

The Bitter Cold and Two Difficult Fires a Handicap

Two of the worst fires for years in this city broke out within a few minutes of the other on Monday night. The first coming in from box 43 at the corner of Cabot and Islington streets, calling the department to the railroad yard, where there was a fire in the machine shop connected with the round house and this was completely destroyed and the sparks for a time threatened that entire section of the city.

While the fire department was engaged at this fire, fire was discovered in the wooden block occupied by the Penby Music Company, Downing's restaurant, Dondero's fruit store and Dolan's cigar store, and this was the most stubborn blaze the department has had to contend with for years, and at a time it looked as though the entire block would go.

The fire was first noticed in Downing's restaurant, when smoke began to come through the rear and it worked its way up through the building into the rooms occupied by Mr. Downing and his family and they hastily dressed and moved out, Mrs. Downing having no time to properly dress the little child to take her to the Kearse hotel across the street, Mr. Has set's family also made a hasty dress and moved out of the now smoke-filled rooms.

In the meanwhile an effort was made to locate the fire, at the same time an attempt was made to ring in an alarm from box 53 but this for a time failed to work and finally by the aid of an automobile word was sent to Chief Woods at the fire at the round house and the Auto Chemical was sent back and the Kearse crew came back with a hose wagon. Engines two and four, which did not respond to the first alarm also arrived but at first they were handicapped by the lack of hose the wagons being at the other fire.

The fire in the meanwhile was gaining a greater headway, and when the first stream was finally laid up over Downing's the fire showed in the rear of Dolan's cigar store and as rapidly as possible considering the lack of equipment, streams were laid from both the front and back of the building.

The guests in the Langdon hotel were aroused when the fire began to look threatening and they all dressed and gathering their belongings, came down to the office, some moving out to other hotels.

The remainder of the apparatus came back from the first fire, including the ladder truck and ladders were raised about the building, the big extension being pulled in front of Downing's, but it was not needed. Chief Woods however took no chances and he had ten or more streams going, pouring tons of water into both the rear and front of the stores.

For some little time it seemed impossible to locate the fire, although clouds of smoke poured from the entire building, especially in the stores of Dolan and the Downing restaurant. The fire having worked across and up onto the second floor rear, and shortly after twelve o'clock the second floor in Peabody's music store came crashing down and this was followed shortly after by the floor in Downing's. Dondero's store between Dolan's and Downing's did not seem to have any fire, but it was thick with smoke.

At two o'clock the fire was working up through the rear to the top floor, and despite the flood of water, it broke through the roof, but several extra streams were directed in this section and the fire driven into the front of the building and shortly after it came through the roof on the front. Again a deluge of water drove it back and while it burned fiercely in the middle of the building it did not

WILL NOT BUILD THE NEWCASTLE SEWER THIS YEAR

A special meeting of the Mayor and Council was held on Monday evening, with a preliminary meeting in the mayor's office in regard to the New Castle sewer, at which many of the positioners appeared, and it was 11:45 when the meeting was finally called.

There were several minor positions considered, and the Board of Public Works reported on the New Castle sewer. Their estimate was, that for material alone, the sewer would cost \$6,400. They thought it impractical to build this winter.

The question of disposing of the sewer by running a line from New Castle avenue along the water front to the sewer along the South Pond, and then extending it into the channel as far as Little Island, was considered and finally on motion of Councilman Bennett, the Board of Public Works was asked to submit estimates in detail on this line.

The Board also submitted an estimate of \$490 for replanking Sagamore bridge, which they stated was very necessary as the structure was in a dangerous condition.

They reported that the State street sewer was not of sufficient depth to take in the new theatre on Porter and Church streets, and that it was being built from the trunk line on Morland road to Porter street, and this would take care of the entire south side of Congress street, which was in great need of a larger sewer. The additional cost for the work would be \$1700. Both recommendations were referred to the finance committee.

The Board also recommended that a lot of land on the New Road adjacent to city property be purchased at \$500 for a gravel pit. This likewise was referred to the finance committee.

City Auditor Murray called the attention of the Council to some defects which would exist: Public buildings, \$475, this being due to the fact that the year's supply of coal had been purchased; \$115 in street lights, due to additional lights; and \$225 in general expenses, this being due to the printing of the bond issue, which was originally taken care of from the premiums from the bonds, and the last issue there were none. The report was referred to the committee on finance.

The committee on street lights made a short report which was adopted.

England Expects Germans to Invade Her Country and is Taking Precaution- ary Steps

British Bombard German Positions on Belgian Coast.

(Special to The Herald)

London, Nov. 24.—Plans for dealing with a possible German invasion were spoken of in the House of Commons tonight by Under Secretary for War Tennant.

W. C. Bridgman, member from Shropshire, asked whether the wearing of brassards would insure that persons taking no part in the defense of the country would be regarded as civilians. He also asked if the government was aware that many active men over the recruiting age desired to fight in event of an invasion and are prepared to furnish their own arms and equipment if the war office will design a uniform for such a force.

Mr. Tennant replied that the war office felt it was the first duty of the navy to prevent a raid.

"In event of its taking place," he said, "it is our duty to drive the Germans into the sea as fast as we can and I hope we shall be able to do so."

In regard to the action of the civil population if an invasion takes place, he pointed out that emergency committees had been formed in the various counties where there was any danger of an invasion and instructions were being issued to those committees.

The Pall Mall Gazette, referring to the report of "liveliness" at Emden says it "accords very well with what passed in this country last week."

"Military movements took place," continues the paper, "which of course we shall not dwell upon in detail, but which gave rise to the almost universal belief that the authorities had news of some attempt to be made against us. The attitude of the public mind was one of interest. It certainly was not one of alarm."

BRITISH BOMBARD GERMAN POSITIONS

(Special to The Herald)

Amsterdam, Nov. 24.—British warships bombarded Zeebrugge and the German positions along the Belgian coast all day Monday, according to dispatches received from Oostburg. At the beginning of the cannonade, German guns answered the warships' fire, but later only the British naval guns were heard, indicating that the German batteries have been silenced.

AUSTRIANS SUCCESSFULLY ATTACK RUSSIANS

(Special to The Herald)

Vienna, Nov. 24.—The Austrian garrison at Pryzmal has made a sortie and successfully attacked the Russian troops besieging that fortress, according to an official report from the Austrian general staff under the date of Nov. 22.

It also states that the attacks of the Russian advance guards along the Dunajec river southeast of Cracow have been repulsed. Northwest of Cracow, in Poland, the Austrians have captured Pilica and taken 2400 prisoners.

HEAVIEST FIGHTING IN ARGONNE REGION

(Special to The Herald)

Paris, Nov. 24.—Despite violent attacks by the Germans in the Argonne forest the French have gained ground there, according to an official statement issued here today.

The heaviest fighting now seems to center in the Argonne region. At other points the German bombardment of the allies' line appears to have become less violent. Between the Argonne and the Vosges, a thick fog prevails. This is undoubtedly having its effect upon military operations.

Nine different varieties of gas were used by the Germans in the Argonne region. The gas attacks of the allies' line appears to have become less violent. These attacks were made by the allies' line appears to have become less violent. These attacks were made by the allies' line appears to have become less violent.

PORTSMOUTH DRIVING CLUB ELECT OFFICERS

The Portsmouth Driving Club perfected its organization at a meeting at the Board of Trade meeting on Monday evening and elected the following officers:

President, Hamilton H. Burton.
Vice Presidents, Charles Allen and W. P. McDredge.
Secretary, Dr. Samuel Griffin.
Treasurer, Norman H. Beane.
Directors, Rev. E. J. Walsh, Messrs. Edwin Seybolt, Daniel Mahoney, Albert Bishop, Arthur E. Freeman, Arthur Schurman, Mayor H. D. Yeaton, Dr. J. H. Neal, W. McGinnis, P. T. McWilliams, James Quill, Dr.

E. S. Cowley, W. A. Bragden and H. E. Philbrook.

A meeting of the directors will be held this evening to provide by-laws and these will be presented at the next meeting, Nov. 30.

The sentiment of the members seems to be that the club should take over the old Rockingham track on Sherburne road, which is a much larger and superior track to that at the Jones farm, and the directors will report on this at the next meeting, the cost of getting it in condition and fencing it in. The idea of an annual fair was also discussed and this will be given further consideration.

"HURRY UP" YOST

The Great Michigan Coach.

(By Frank G. Menke)

New York, Nov. 21.—Many amusing stories are told concerning "Hurry Up" Yost, the great Michigan coach, to show that he is a hurry-up person in everything he does and that he is absolutely impatient with delays.

Once upon a time Yost invited a friend to visit him at a place where he was camping. The friend arrived in the time and Yost met him with a buggy and proceeded to drive the friend to the camp. Yost drove his horse like he drives his footballers—fast and fast.

In due course of time the buggy reached a small creek and Yost, instead of driving a half mile for a bridge, drove across the little stream. It was a time-saving process. The horses were going at a great clip. The buggy wheels struck a rock and the buggy nearly upset. Yost's friend was thrown out of the buggy and into the creek.

Yost, who had been busily engaged in talking and driving at the same time, never noticed the absence of his friend until he reached the other side of the creek. Then he pulled his horse down to a few, looked back, and saw his friend wallowing in a deep pool in the creek.

"Hey, what're you delaying things for any way?" yelled Yost. "Hurry up and get out of that creek. Can't wait all day."

On another occasion Yost invited the same friend to go hunting with him. After Yost and his friend had tramped about 20 miles through the snow covered forest the friend was reduced to a state of utter exhaustion.

"Let's start back," suggested the friend.

"Start back?" exclaimed Yost. "Why we've just got started. Come on! About four miles up there's some good hunting."

"Nix," answered his friend. "I can't go any further. I'm all in."

"All right," answered Yost. "You lay down and rest in the snow. I'll be back presently."

And Yost was off, leaving his exhausted friend lying in the deep snow. In about an hour or so Yost came back, loaded with game, and without a word of inquiry as to how his friend felt, said:

"Well, let's hustle back now. It isn't far to walk—only about 10 miles in a direct route."

Yost is a physical wonder. Years of outdoor life have hardened his muscles and made him a man of iron. He can endure more physical strain than the majority of the strongest athletes.

Yost, as a football coach, is a driver. No man ever shirked while working for Yost. Every man who works for him must give his best right down to the last ounce. But Yost never asks more of his men than he can do himself.

Often it has happened that Yost, when coaching some new men, has demonstrated just what he wants done.

Yost once had a green squad whom he tried to drill into hitting a line so as to make an opening for plays. The guard failed to turn the trick. In the way that Yost wanted. He was opposed by a husky scrub and said something to Yost about the scrub line being "pretty tough."

"Tough, hey," snapped Yost. "I'll show you just how tough it is—not."

Yost then jumped into the guard's position in the Varsity line. He gave orders for the scrubs to double the wing that was opposed to him. The Varsity signal was given and the ball was passed. At that moment, Yost, who isn't a physical giant in appearance, hurled himself against the double scrub line. For a fraction of a second the double line held against the Yost plunge. Then the line crumpled and Yost went through, with the varsity back following and carrying the ball for a huge gain.

"That's the way to bust a line," said Yost to the guard. "Now you go in there and do the same thing. You're bigger and heavier than I and you ought to bust it twice as quick and bust it open twice as wide. Do it. And hurry-up about it."

Bresnahan Gets \$18,000 a Year As Manager of the Chicago Cubs

ROGER BRESNAHAN

Chicago, Nov. 21.—The terms under which Roger Bresnahan signed to manage the Cubs, according to newspapers quoting a "trustworthy source," include a salary of \$5,000 as player and \$12,000 as manager, or \$17,000 a year. A clause providing that the new manager cannot be deposed without his consent until the expiration of his three years' term also was included. Speculating on the future of Hank O'Day, deposed West Side tender, to make room for Bresnahan, Chicago

fans believe he will again join President Tener's staff of umpires. Upon his retirement as Cincinnati manager he resumed his place as umpire during 1912. Because Bresnahan's contract requires him to be a playing manager and catch a great number of games, Jimmy Archer is believed to be eager to leave. Newspapers also published a report that Archer, the Cub catcher, is considering an offer from the Buffalo Federals. He refused to discuss the rumor.

JURY CONVICTS HENRY SIEGEL OF A MISDEMEANOR

Apparently Influenced by the Court's Doubt Regarding the Proving of Grand Larceny.

Geneseo, N. Y., Nov. 23.—Henry Siegel, the bankrupt New York merchant and banker, was tonight convicted of a misdemeanor in obtaining credit on false financial statements.

Justice William W. Clarke at once sentenced Siegel to pay a fine of \$1000 and to serve 10 months in Monroe county penitentiary. Stay of execution of the prison sentence was granted until the second Monday of June and bail was fixed at \$25,000.

Siegel must appear before Justice Clarke in Geneseo at that time and if his creditors have been substantially provided for, further action on the prison sentence will be taken.

The offense is a violation of section 1292 of the laws passed in 1902. In finding a verdict on this charge the jury took a course outlined by Justice Clarke in his final instructions.

He said he had serious doubts as to the validity of the grand larceny charge but left it to the jury to decide as to Siegel's guilt or innocence of the less serious offense.

CAPTAIN HILL ASKED TO EXPLAIN

Boston, Nov. 24.—Captain Walter N. Hill of the U. S. M. C., last night declared untrue a published interview which quoted him as having said that Mexicans probably would be burning and looting Vera Cruz by nightfall, if the American forces left there today. He said he had not talked with any reporter since he came here Saturday to visit his father.

Captain Hill expressed the opinion that the alleged interview was a garbled account of a personal conversation. He said he had told a friend that there might be trouble in Vera Cruz when the United States forces departed. He added that he had made a formal report to this effect to his superiors in Washington.

Corns Quit, Pains Stop, with "Gets-It"

Quit Plasters, Salves and What-Not. After using "GETS-IT" once you will never again have occasion for asking, "What can I do to get rid of my corns?" "GETS-IT" is the first sure, certain corn-cure ever known.

Why "Suffer-Get-It" with Corns? Use "GETS-IT." They'll Vanish!

If you have tried other things by the score and will now try "GETS-IT," you will realize this glorious fact. You probably are tired of sticking on tape that won't stay stuck, plasters that shift themselves right onto your corn, cornplasters that make a bundle of your toe and press right down on the corn. Put two drops of "GETS-IT" on that corn in two seconds. The corn is then doomed as sure as night follows day. The corn shrivels. There's no pain, no fuss. If you think this sounds too good to be true try it tonight on any corn, callus, wart or bunion.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

GERMANS STIRRING UP TROUBLE BETWEEN JAPAN AND U. S.

Washington, Nov. 23.—Evidence has just been obtained that would indicate diplomatic representatives of Germany, are responsible for the wide spread report that Japan has demanded that she be accepted on an even basis by the European allies so that her hand may be strengthened to such an extent that she will be in a formidable position to back up demands which she purposes to make on the United States at the expiration of the European war.

The purpose of the story, it is assumed here, was to arouse anti-Japan sentiment in this country by leading the public to believe that the Mikado's government is merely seeking to put herself in readiness to strike at this country.

Here is the substance of the report as given out:

"From a high diplomatic authority it was learned that Japan has made a proposition to the Triple Entente

that it be taken into their agreement not to end the war with Germany until all of the powers now fighting the Kaiser are ready to make peace together.

"Russia and France object to the acceptance of Japan into the councils of the Triple Entente, Great Britain has attempted to persuade Japan it is not fitting. The Nippon Kingdom, however, insists that it has the right to be there.

"It is understood however, Great Britain is attempting to persuade its allies to consent to a proposal to Japan, the nature of which may force the latter to withdraw its demand. This proposal involves the transporting of 500,000 Japanese troops to the Franco-Belgian theatre of war for use against the Kaiser.

"If Great Britain makes the proposal formally, persons familiar with Japanese diplomacy say Japan will accept it promptly and insist upon its

reception upon an equality with the Triple Entente in all future dealings with Germany.

"If Japan is successful in forcing its way into the European councils its position in the controversy with the United States over the California land laws will be greatly strengthened."

A GREAT ROMANCE

Thrilling events come thick and fast in the great serial romance adventure story, "The Flying Courtesan," by E. J. Rath, the first installments of which are now appearing in the big Illustrated Magazine of the New York Sunday World. A young man hears his name whispered in Washington, finds himself being introduced by a strange beautiful woman as her husband at a White House reception, compromising him with his fiancée. An exciting chase by motorcycle follows. These are but starting incidents of a story you should not miss reading. Order the Sunday World in advance.

TUG UNDER WATER

Gloucester, Nov. 23.—The towboat Nellie of Portsmouth, N. H., employed by the Metropolitan Dredging Company here in dredging Mill River, lies submerged at the wharf of the Ann Anchor Works in Annisquam River. She was moored to the wharf, but the tide left her on a sloping bank causing the craft to roll over and become covered at high tide. Work on raising her was begun tonight.

GREAT BRITAIN INVADIED MORE THAN FIFTY TIMES SINCE THE CONQUEROR'S TIME

In the spring of 1909 there was a great outbreak of what was derisively dubbed "German phobia" in England, and many prophets, now of more honor than then, ventured to predict that Englishmen then living would see the hosts of the Kaiser on the fields of York or Kent.

Charles Russell, a British statesman, advocating stronger measures of defense from the peril across the North Sea, attempted to smother the snug London merchant's conviction that the British Isles are safe from invasion by showing how easily they had been invaded in the past.

He showed that hostile forces had landed on British soil no less than 53 times since William the Conqueror came over from Normandy in 1066.

Some of these invasions soon passed, others resulted in the upset of a dynasty. It is true that the two greatest dangers threatening Britain since the Conqueror's time—the Spanish Armada and the proposed expedition across the channel of Napoleon Bonaparte—were successfully parried. But in gen-

eral it was seldom found difficult to pick a secluded harbor and throw several thousand men ashore before defenders could arrive in sufficient force to do more than put up a more or less perfunctory resistance.

Hostile troops landed fourteen times in the 18th century, thirteen times in the 17th century, five times in the 16th; eleven times in the 15th; and six times in the 14th.

The nationalities included were Danish, Norman, French, Spanish, Dutch and American. The last named may be a bit surprising, but the daring Paul Jones carried his sword to the shore of Britain four times in 1778-79, on one occasion destroying the residence of Lord Selkirk. It is to be noted, however, that many of these invasions of Great Britain were aided by British, or a faction opposed to the rulers, or even had British leaders for their foreign troops.

Since 1798 Great Britain has been free from invasion—125 years. It is this long period of peace which got the British into the confirmed belief that William the Conqueror was the last to invade their land and would stay the last indefinitely.

Here is Mr. Russell's list of the invasions of Great Britain:

1066—William the Conqueror landed at Hastings.

1099—The Danish invasion up the Humber; York sacked.

1107—Robert of Normandy landed at Portsmouth.

1139—Matilda, granddaughter of William the Conqueror, landed at Portsmouth and took King Stephen a prisoner.

1215—Louis VII of France, landed at Sandwich, in Kent. Marched on London; King John compelled to fly.

1315—Edward Bruce with 6000 men, landed at Oldfleet, Ireland. Crowned King of Dundalk.

1326—Isabelle, Queen of Edward II landed at Orwell, Suffolk. Deposed King Edward.

1377—French attack Dartmouth.

1377—French attack Rye.

1377—French attack Portsmouth.

SUBMARINE AND DESTROYER OF GERMANS SUNK

British Patrolling Vessel Rams Former Off Coast of Scotland.

London, Nov. 23.—The secretary of the admiralty announces that the German submarine boat U 18 which was reported off the north coast of Scotland this morning was rammed by a British patrolling vessel and foundered.

The patrolling ship rammed the submarine at 12.20 o'clock this afternoon. The U 18 was not seen again until 1.20 when she appeared on the

surface flying a white flag. Shortly after this she foundered just as the British destroyer Garry came alongside. The destroyer rescued three officers and 23 of the crew, only one being drowned.

The names of the German officers captured are Captain Von Hennig, Engineer Lieut. Sprüger and Lieut. Neibuerg.

The U 18 was built in 1912. She had a cruising radius of 2000 miles, and a speed of 14 knots above water and 8 knots submerged.

A dispatch to the Exchange Telegraph company from Copenhagen says the Danish steamer Angledane collided last night with the German torpedo boat destroyer (H24), which foundered.

Two German sailors, according to the correspondent were rescued by the steamer, seriously injured, but succumbed to their injuries. The remainder of the crew of the destroyer were drowned, according to this dispatch; but a dispatch to Reuters's Telegram Company from Copenhagen, says that the crew of the S 124 has arrived in Copenhagen.

The S 124 was built in 1908. She was of 6500 horse power and had a speed of 25 knots. She carried a crew of about 60 men.

CONGRESSMAN REED THANKS PORTSMOUTH

He Writes That He Will Do All in His Power While He Continues in Office.

In a letter to a friend, Congressman Eugene Reed says: "I was more than pleased with the magnificent role old Portsmouth gave me and it will be my aim during the balance of my term in labor in every way for Portsmouth's interests. I will do all I possibly can to help secure appropriations for the navy yard. Tell the newspapers that I want to help Portsmouth in any way that I can."

PEOPLES' OPINION

Kittery's Patty Lenton Season.

To the Editor of The Herald: If it be true that the ministers of Kittery have requested that there be no public social activities during the period of their proposed spiritual spell-binding in the town, as reported in the Kittery news this evening, it is one of the biggest pieces of ministerial gall that the people of the town ever listened to.

I prefer to hope that the persons have been incorrectly reported, and that they do not deserve this criticism. But if it be true that they would impose this sweeping injunction upon anyone's business or social affairs in which they would be meddling, it would be an impudence to which only clergy-men would presume. It might be a service to tell them that they take themselves and their superstition too seriously, perhaps, and that they evidently do not know their place.

I am assured that the Riverside Fair will be held the first three evenings of December, and that the members of the Association have planned for a very successful and pleasant series.

RAILROAD MACHINE SHOP A TOTAL LOSS

The old wooden machine shop connected with the Boston and Maine roundhouse was completely destroyed by fire shortly after eleven o'clock last night and for a time it looked as though several houses out on McDonough and Dover streets would catch fire.

The old building, oil soaked, burned fiercely and it threw off a shower of sparks which were carried by the northwest wind over on McDonough street. Fortunately the mass of the

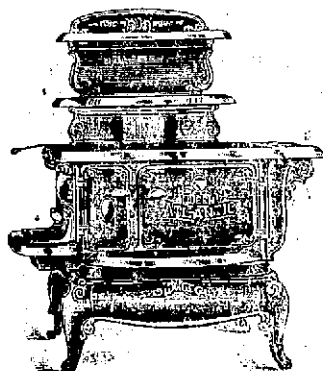

roofs were covered with snow and this alone prevented many catching fire. Streams were laid from McDonough street, across the tracks but there was nothing that could be done as the building was beyond saving before the apparatus was called and it finally burned itself out. Several of the railroad extra cars, which were on sidings, were more or less scorched. The sparks started several small fires on roofs, but men were detailed to watch for this, and these were quickly put out.

GERMANS ACTIVE ALONG BELGIAN COAST

Making Ready For Raids on England Ypers Badly Damaged by Gun Fire

London, Nov. 23.—Extreme activity of the Germans along the Belgian coast as well as reports indicating that warships are about to move from London were causing the greatest uneasiness here today.

The greatest mystery surrounded the movements along the coast. Military experts here express the belief that this activity in Belgium may be a part of a plan for the establishment of bases for a daring raid upon London or the forerunner of a movement to engage the allied fleet off the coast and, under this cover, endeavor to transport troops by sea to the French coast.

The entire population of the Belgian coast towns of Zeebrugge and Knokke have been transferred to Brussels by the Germans. The people were not permitted to move into Holland. Bruges is now said to be garrisoned largely by slightly wounded soldiers, the others having been moved toward the front.

Reports have been received that six submarines are being put together on the docks at Zeebrugge. The inhabitants of St. Nicholas, a city of 40,000 between Antwerp and Ghent, have been ordered to leave immediately. St. Nicholas is an important railroad junction. The people of the town were ordered to move to Antwerp, where they were told unoccupied houses originally abandoned by Belgians who fled from the city, would be turned over to them.

Germans Bombard Four Towns in the Western Theatre

Paris, Nov. 23.—News of the bombardment of four towns by the Germans was made public today in official dispatches.

Today's French statement said that at Ypres, Belgium, the point selected for the new German attempt to force a way through to the English channel the artillery fire yesterday was violent, and that many buildings were set on fire. The German official statement speaks of the severe fighting at Ypres and also says that a British squadron's attempt to bombard Nieuport was repulsed.

Renewed bombardment of Nieuport is reported from the front, together with reports of great activity among the Germans all along the coast.

Soissons and Rheims have again been subjected to German fire.

All along the German lines there is said to be a considerable movement of guns through Belgium toward the coast. Heavy guns have been mounted between Knokke and Nieuport with the evident intention of returning the fire of the allied warships which have been bombarding the German lines.

At Ypres the town hall and market were partially destroyed and the city partially ruined. In the Argonne the champagne district and along the other points of the line the Germans are reinforcing their trenches, endeavoring to build new ones in the face of the allied artillery fire.

They are said to be gaining ground slowly.

Reports from The Hague declare fighting is now centering around Middelkerke, midway between Ostend and Nieuport. South of the city there has been a battle of great ferocity, the German and allied forces resorting to the use of the bayonet.

When the garrison of Bruges was

relieved by the lightly wounded soldiers that the sound troops might be turned to the front, the wounded men marched into the city singing. This change in the Bruges garrison was made Friday.

The official French bulletin given out in Paris this afternoon says: "Yesterday was marked by a violent artillery fire. The enemy directed his attention particularly to the town of Ypres, where the battery of the cathedral, the market and a number of houses were set on fire, to Soissons and to Rheims."

"In the Argonne, the day was characterized by hot fighting. The enemy delivered very spirited attacks which were repulsed."

"In the Vosges and in the Vosges the situation is without change."

The renewed efforts of the Germans in the west, notwithstanding the effect of the cold, wet weather, which was said to make fighting in the lowlands almost an impossibility, attracted renewed attention to the western field of battle.

The struggle between the Russians and Austro-German forces in the east, however, was still rated as of greater importance because of the influence the outcome is expected to exert upon the whole future course of the war.

From this quarter came no definite news today. Berlin was confident of an early decisive victory, but the war office there acknowledged today that the arrival of Russian re-enforcements had postponed the decision.

Berlin Claims British Squadron Was Driven Off.

Berlin, Nov. 23.—The official communication issued by the German general army headquarters today says:

"Fighting continues at Nieuport and at Ypres. A small British squadron twice approached the coast, but was driven off by our artillery. The British naval guns had no effect."

"In the forest of the Argonne we are gaining ground step by step, one trench after another and one point of support after another being wrested from the French and a number of prisoners being taken daily."

"A violent reconnoitering expedition against our position on the east of the Moselle river was made ineffective by our counter attack."

"In East Prussia the situation remains unchanged."

"In Poland the appearance of Russian re-enforcements is postponing a decision of the battle."

"In the region to the east of Czestochowa and to the northeast of Cracow the Austro-German offensive was maintained."

LONGER TRAINING ON SHORE

Navy Secretary Daniels Makes Period for Apprentice Seamen There Six Months Instead of Four.

Apprentice seamen in the future will receive six months' academic and professional instruction at naval training stations instead of four months, is heretofore. In announcing this change today Secretary Daniels said it marks an extension of the general educational plan of the navy.

While the work ashore will be continued, the longer shore preparation will make it possible for the men once they are transferred to the fleet, to begin work immediately upon the higher branches, chiefly those relating to strictly professional and technical subjects.

George S. Chandler, 420 Pleasant street Portsmouth, says: "I do a great deal of walking in my work, and in that way my kidneys became weakened, causing me much suffering. About three years ago I learned of Doan's Kidney Pills and began using them. They cured me and I have had little trouble since. Sometimes when I overwork or do any heavy thing, I notice lameness in my back, but a few doses of Doan's Kidney Pills bring relief. I have recommended this remedy to many of my friends and in every instance where it has been tried, benefit has followed. Price 50c at all dealers. Don't forget to ask for a kidney remedy—get Doan's. BOSTON LETTER

Boston, Nov. 23.—Representative Henry F. Long of Topsfield has filed a petition and bill with the clerk of the house asking for legislation, to provide that all money received as fees for hunters licenses shall be turned over to the Commission on Fisheries and Game to be expended by them in furthering the propagation of wild animals and bird life. A petition signed by Amos Weston has been filed by Representative Samuel Davis of Boston for constitutional amendment providing that legislative authority of the commonwealth be given power to regulate or prohibit either upon public or private property the public display of posters or signs or of any commercial advertising device.

Boston, Nov. 24.—An unusual feature of the annual winter meeting of the State Board of Agriculture, to be held on December 1, 2 and 3 at Horticultural Hall, Worcester, will be motion pictures of farm operations. They have been especially prepared as a part of the State exhibit at the Panama-Pacific Exposition.

Boston, Nov. 24.—The Department of Agriculture has issued a warning to all farmers and stock raisers to exclude from their property and persons who had so called "cure-alls" for cattle diseases. Department of Justice officials said that one arrest had been made in instance of a person who was charged with impersonating a Federal animal inspector. Specialists of the Department of Agriculture have issued a statement that people in states quarantined for the foot and mouth disease need have no fear of eating meat, providing they cook it thoroughly.

Boston, Nov. 24.—Matthew Hale, chairman of the Progressive State Committee, who has been seriously ill for several months will go south for the winter. Mr. Hale's many friends have been extremely gratified to learn that he is steadily improving and that the probability is that he will soon completely recover his health.

Boston, Nov. 24.—Edwin D. Mend, president of the World Peace Foundation in his speech "The War Against War," declared: "It is remarkable to note that the nations who are at war are praying to the Almighty to help them kill their brethren who are on opposing sides. Christianity which teaches love, self-sacrifice, toleration and forgiveness, has failed. It is for us in this country to sow the seed of true Christianity and show the nations abroad when the war is over that it is possible to live in peace, that peace between two nations is just as possible and lasting as peace between individuals."

Boston, Nov. 24.—Work on 600,000 pairs of shoes for the allied armies of Europe has started at a Webster shoe factory. These shoes will be distributed in several sub-orders in England, Belgium, France and some of the armies of Italy. The 600,000 pair order means an outlay of approximately \$1,800,000 and the work will be done mostly in Webster, although Marlborough will share in getting out the big order.

PASS THE PLATE FOR STARVING BELGIANS

To the Editor Chronicle:

Dear Sir:—Christmas approaches and countless unhappy Belgians, despite governmental relief, the Rockefeller Foundation and other valuable agencies, are confronted with starvation. I therefore beg the favor of your columns to say that the Dollar Christmas Fund for Homeless Belgians, of which I am Treasurer, is working for the special purpose of preventing starvation amongst hundreds of thousands of Belgians this winter. For this purpose we are cooperating with the London "Shilling Fund" a much older fund which has collected nearly \$400,000 and which is expressly organized to see that no Belgian man, woman or child spends Christmas-tide devoid of food and shelter.

There will be no duplicating, no overlapping and every penny subscribed will go direct to the victims in whose behalf I appeal. I believe this great work of mercy commands the sympathy of us all and more especially in this month when Americans doubly blessed with peace and plenty are preparing to celebrate the Day of Thanks giving. Inspired by this thought I suggest various ways in which you can help to avert the agony of suffering which must otherwise confront the refugees during the coming winter. You can send a donation to our fund addressed to myself as Treasurer, Messrs. Henry Clews & Co., Bankers, Broad Street, New York, or you can apply to our Secretary, Percy Bullen, 66 Broadway, New York for a collecting card. He will be glad to issue same to any person desiring references. Churches, Chapels, Clubs, Societies and Sunday Schools can assist by a collection. Entertainment committees may render great help by sending us the proceeds of benefit performances. In all these ways friends everywhere are assisting nobly. All the money received will be paid to Europe before Dec. 20th. Many heads of families and boarding houses have promised to "pass the plate" for the homeless Belgians before the turkey on Thanksgiving Day. The needs are innumerable. Let us remember that no little nation in the world's long history has been so pitifully

stricken yet no people can raise their heads more proudly from the dust. The Crown of Thorns is still a Crown I help us as best you can. Your gift will surely be remembered long after the war has ceased and no man's Thanksgiving or Christmas Day will be the less happy because in some cases the gift may entail some measure of personal sacrifice.

Yours very truly,
HENRY CLEWS,
Treasurer, Dollar Christmas Fund for Homeless Belgians, 15 Broad Street, New York.

WILL GIVE DINNER

Captain Beach and members of the Salvation Army are planning to give a Thanksgiving dinner on Thanksgiving Day to the poor children of the city, numbering from 75 to 100.

Mlle Lea Piron, prima donna of the State Opera, Paris, says: "Savon Cadum has given me most excellent results."

Many women conceal their real beauty behind a coating of cosmetics, powders, creams and lotions, covering their faces with an air-tight coat that clogs the pores and prevents the natural discharge of impurities that lodge in the pores of the skin. The beauty of the skin depends upon a healthy activity of the pores, which must be kept clean so as to enable them to throw off impurities. For this purpose nothing is so good as Savon Cadum, the famous French Complexion soap. At dept. and drug stores, 50c.

CHICAGO STOCK EXCHANGE OPENED

Chicago, Nov. 23.—The Chicago Stock Exchange opened its doors today and trading resumed where it stopped July 30, when with other trading centers the Exchange closed because of the European war.

The Chicago Exchange is the first of the broad official markets in securities throughout the world to resume operation.

Business began with the closing figures of July 30, as a basis for transactions. In the first 10 minutes little business was done, as only 100 shares of various stocks changed hands. A large and representative crowd of brokers was on hand and smiles and congratulations passed between the traders.

Since Aug. 14 deals have been transacted through the medium of a trading committee, which authorized transfers of stocks at figures higher than the July 30 prices.

The initial sale was one of 10 shares of St. Paul at 82 3/4, the closing price of July 31. The next trade was 10 shares of Union Carbide at 146, followed by 15 shares at the same price; the close July 31 was 130. A small lot of Quaker Oats preferred changed hands at 104, and People's Gas at 113 and at 117 7/8. Swift & Co. was quoted at 102 to 102 3/4, while 30 1/2 was bid for Studebaker common, but none was offered.

MORE APPRENTICES TO GET LONGER TRAINING

Washington, Nov. 23.—Apprentice seamen in the future will receive six months' academic and professional instruction at naval training stations instead of four months, as heretofore. In announcing this change today, Secretary Daniels said it marks an extension of the general educational plan of the navy. While the work of the stations will be continued, the longer shore preparation will make it possible for the men, once they are transferred to the fleet, to begin work immediately upon the higher branches, chiefly those relating to strictly professional and technical subjects. Further outlining his plans, Mr. Daniels said:

"Practically all recruits for the naval service are immediately upon enlistment sent to the four training stations located at Newport, R. I., Norfolk, Va.; Great Lakes, Ill.; and San Francisco, Cal. The number of them at all the stations approximating 3500. At these stations they learn how to care for themselves are given lessons in sanitation, and are taught, in addition to the school work, infantry, boat and gun drills, and as much of the elementary work of the navy as time and facilities will permit.

"Conditions at these stations make it possible to carry on academic education in a more systematic attendance than is practicable for those on ship, and their retention at them for a period of six months permits of an extension of their academic work to an extent that will be very valuable. Young officers who are not long out of the naval academy and are therefore in close touch with the details and methods of study and instruction are detailed to each station to assist with the education and training of these newly enlisted men; in addition to these, experienced and skilled warrant officers, and petty officers, are also detailed for the work, with the result that a surprising development takes place in young recruits in the period of a few months following their enlistment."

RUSSIANS CAPTURE IMPORTANT TOWER

London, Nov. 23.—Three big battles, are raging between the Russian and German forces in the east.

Reports from Petrograd tell of the capture of Gumbinnen by the Russians in a battle which lasted five days and ended in a rout of the German forces. The city has a population of about 15,000 and is 60 miles southeast of Königsberg.

Terrific fighting is going on near Warsaw, and the Russian reports say the German advance has been checked. The losses are reported as heavy, and 12,000 Germans were taken prisoners.

Another battle is on between the towns of Czestochowa and Cracow, and the Russian movement toward the latter place is being made slowly against strong opposition.

Capture of Gumbinnen.
The correspondent of the Telegram in Petrograd reports the capture of Gumbinnen, in northern East Prussia, by the Russians. He says:

"Although official dispatches only mention skirmishes in East Prussia, a dispatch from a correspondent with the active army reports, with circumstantial details, the Russian capture of Gumbinnen after a battle lasting five days, the Cossacks being the heroes of the most stirring incident of the struggle, capturing the enemy's batteries by a daring charge which put the gunners to flight.

"The German defenders declined to await a bayonet charge and the Russians entered in triumph to discover the town half demolished by shell fire and abandoned by the population."

Germans Nearing Warsaw
German cavalry patrols have penetrated to within 30 miles of Warsaw, the capital of Poland.

Heavy fighting is still in progress today between Lowicz and Skerminowice, where the Russian force is opposing the main line of advance of the army of Gen. von Hindenburg. Reports have been received of the destruction of a German cavalry patrol 10 miles in advance of the main battle line. The Germans were cut off by Cossacks, and those not killed or wounded were made prisoners.

It is now only a question of how many Germans succeeded in escaping. It is declared here today, in reports of fresh and important successes gained by the Russians between the Vistula and Warthe rivers.

Bay Advance is Checked
The battle which has been raging in contesting the German advance upon Warsaw has resulted in the forward movement being checked, it is asserted. The German losses are said to be enormous. At Kutno, 25 miles west of Lowicz, 12,000 prisoners were taken.

Another terrible battle is raging between Czestochowa and Cracow.

"Situation Favorable," Berlin Report Declares.

Berlin, Nov. 23.—Army headquarters today gave out an official report, dated Nov. 22, which reads as follows:

"In the western area of the war the situation remains unchanged.

"In Poland the fighting continues, and the struggle is going on to the south of Plock in the vicinity of Lodz and near Gostynin."

The general staff of the German army, referring to important operations in Poland, now bearing a decisive outcome, announced today that it considered the situation everywhere favorable.

"May Decide War."

All the Berlin newspapers comment favorably this morning and very hope fully on the possible outcome of the fighting in Poland. They express the opinion that these engagements may decide the entire Russian campaign, if not the outcome of the war.

The Lokal Anzeiger has published an interview with an officer who speaks for the military authorities. He says that in consequence of the rolling up of the Russian right wing by Gen. von Hindenburg and the simultaneous attack of the Austrians on the Russian left, a general Russian retreat with the evacuation of Lemberg is only a question of time.

In the previous attack, this officer says, the enemy operated in accordance with their program, but today they have been forced to give up their war plans and face an entirely different situation. Existing conditions were created by the German and Austrian commanders.

According to the same authority the Russians lack artillery and rifles.

The war office claims that the Russians have now fallen back more than 80 miles since Nov. 9, when their cavalry was within 15 miles of Thorn.

German and Austrian Armies are Co-operating.

Washington, Nov. 23.—German and Austrian armies are co-operating in their advance in Russian Poland, which is proceeding "energetically," a Vienna wireless message informed the Austrian embassy today. It declared also that in Galicia and the Carpathian mountains, the greatest battle in that territory is now being fought.

"In Serbia our offensive is progressing in spite of strong resistance of fortified positions," the radio gram added. "Bad weather and depleted roads are making progress slow. In the latest encounter the Austrians captured 2440 Serbians, in November so far, Austria has taken 23,000 prisoners. Of these 15,000 were Russians and 13,000 Serbians."

WIRELESS STATION LOCATED AT BAR HARBOR

New York, Nov. 23.—Ernesto G. and Alessandro Fabri, wealthy brothers of New York and Bar Harbor, are being watched by United States secret service agents, in an endeavor to learn whether they have supplied to Germany information obtained by wireless at the Fabri estate in Bar Harbor, where what is reported to be the most powerful and fully equipped amateur wireless plant in New England is situated.

Ernesto Fabri married Edith Sheppard, daughter of the late Elliot F. Sheppard of this city. Her mother is a daughter of the late William H. Vanderbilt. Ernesto Fabri, father of the brothers, was a member of the firm of J. P. Morgan & Co., before he retired from business to seek his health abroad, where he died. The Fabris are of Italian extraction but, according to W. H. Sherman, town clerk of Bar Harbor, Alessandro Fabri is pronouncedly pro-German in his sympathies.

The surveillance over the Fabri brothers is the result of a complaint to the state department in Washington by the British embassy there, alleging that the German government was obtaining wireless information, in this country concerning the movements of English warships and vessels sailing under the English flag, this at a time when all wireless communication between Germany and this country was supposed to be under a strict censorship.

It was on this information, the British embassy protested, that enabled the Germans to find and destroy Admiral Craddock's cruisers, the Hood, the Hope, and the Monmouth, off the coast of Chile.

Immediately on receipt of the complaint the state department looked up every registered holder of a license to operate an amateur wireless plant, in information then reached the department that the operations of English ships and the result of the battles in Europe were being sent to New York from Bar Harbor, Ellsworth, Bangor and Lewiston, Me. This took secret service men into Maine in a hurry.

They soon discovered that the Fabris, particularly Alessandro, were in very intimate terms with Capt. Polack of the Krompholsch-Ceille, which had put into Bar Harbor to avoid capture by British cruisers. They also learned that Capt. Polack was entertained at dinner in the Fabri cottage that the steamship's hand played on the piano and that the Fabris entertained squads of 250 at a time of the Krompholsch-Ceille's crew in a theatre in Bar Harbor. These entertainments were repeated for several weeks.

It was said that for three days after the arrival of the German liner, both Fabris locked themselves up in their wireless room, refusing to see or speak to any person other than the servants who served them their meals night and day. The apparatus was very busy during this period.

Mrs. George L. von Meyer of Hamilton passed the week-end here with her daughter, Mrs. Rogers, wife of Lieut. Rogers, U. S. N., who are occupying the Wendell home on Pleasant street.

Lime Treatment in Tuberculosis

In the May 25, 1912, issue of the Journal of the American Medical Association appeared this statement concerning calcium (lime) medication in the treatment of pulmonary tuberculosis (consumption):

"Under the systematic, continued and persistent regime of calcium assimilation, Van Gleason has seen a number of his patients improve, undergo an expansion of vital capacity, consolidation in the lung, which then resulting would appear to contribute to the softening and clearing of the lesions, stand in hand with this course of events, the system clears up of tubercle bacilli, which finally disappear, and the patients are discharged with healed pulmonary tuberculosis."

Medical journals seldom speak so positively about a remedial agent, yet this testimony coincides with that from many consumptives who have seen their cure effected through the use of Beckman's Alternative.

Since calcium is a constituent of the body for pulmonary tuberculosis and allied throat and bronchial affections, its healing power may be some measure be attributed to the manner in which this element is so combined with other ingredients as to be easily assimilated by the average person and it does not irritate the stomach.

Beckman's Alternative contains no opiates, narcotics or habit-forming drugs, so it is safe to try. If your druggist is out of it, ask him to order, or send direct to Beckman Laboratory, Philadelphia.

THE EUROPEAN WAR RE-ENFORCES PROHIBITION

When the European war opened, the Kaiser put a heavier prohibition on the sale or proffer of liquor to German soldiers, who are "loaded with all manner of gifts as they go off to the wars, piled with cigars and sweets and soups and all manner of delicacies; in fact, everything but strong drink. The order has gone forth, direct from the Kaiser, that on no pretext whatever, except for medical purposes, is anyone to offer a soldier intoxicants. The penalty for breaking the command is terribly strict."

Not only has the Czar prohibited the sale of liquor, or vodka, it is called, during the war, but he declares that the sale shall not be resumed after peace is reached. The words in the Petrograd dispatch, "tremendously improved condition," have taught the Czar the lesson of the strength of sobriety. Visitors arriving from southern Russia say that peasants who before the war had fallen into hopeless indolence and depravity already have emerged into self-respecting citizens. The effect on character already is visible in neatly brushed clothes instead of former ragged and slovenly attire. Hats which formerly were dilapidated and allowed to go without repairs, now are kept in first-class condition. The towns have become more orderly and the peasants indulge in wholesome amusements. These people now save the 55 per cent of their earnings which was formerly spent for drink, and they have increased their capacity through sobriety.

In commenting on these war measures, the Des Moines Register and Leader uses the following language: "These confessions, made under the pressure of an emergency calling for the best there is in the German and the Russian peoples, is a far more convincing argument than can be drawn from any medical work, or from the common experience of our American communities. If liquor had any value either as a food or as a stimulant, the German and Russian armies would be the last to be deprived of it. It is because it debilitates rather than fortifies against the trials and hardships of camp life that almost the first step in the campaign has been to prohibit its use."

FIRST COMPANY, C. A. C.

At the regular drill this evening it is expected that Capt. Foss of Exeter will be present, and will outline the plans of a competition which will be held between different sections of the First Company for a cash prize which has been offered by the Adjutant General.

It is believed that this competition will create a great deal of friendly rivalry between the different sections of the company and the night of the competition it is expected that every member of the Company will be present.

The date of the competition has not yet been definitely settled but it will probably come during the month of December.

Corps. H. W. Morrill and A. V. Stickles and Private Robert Tucker are making good progress in the new signal code which has just been received.

A recent order from the Adjutant General directs that all .38 revolvers be turned in at once, as the new .45 automatic pistols are to be issued soon.

REV. AND MRS. F. J. SCOTT
TENDERED A RECEPTIONMethodist Church Scene of a Large
Gathering--Local Clergymen and
Their Wives Attend.

A large company, nearly the entire congregation of the Methodist Episcopal church and many friends from other churches assembled in the vestry of the Methodist church on Tuesday evening to tender Rev. and Mrs. F. J. Scott, a reception complimentary to their coming to live and work with the members of the Methodist congregation.

Rev. and Mrs. Scott were assisted in receiving by the following: Rev. R. H. Huse, District Superintendent; G. B. Chadwick, chairman of the board of trustees; Mrs. J. H. Grover, president of the Ladies' Aid Society; J. T. Davis, president of the Brotherhood; Mrs. G. B. Chadwick, president of the Women's Foreign Missionary Society; Mrs. Percy Plafsted, president of the Women's Home Missionary Society; H. L. Hilton, superintendent of the Sunday school; J. H. Smith, local preacher; Miss Miriam Schurman, superintendent of the Junior League; D. H. Crossley, president of the Epworth League; Miss Marguerite Jeuness, president of the Standard Bearers.

The following acted as ushers, Messrs. Clarence P. Bodwell, Richard Biddle, H. C. Twombly and Leslie Davis.

Mrs. D. H. Crossley presided over the table at which punch was served. After all the guests in the assembly had been presented to Rev. and Mrs. Scott and had extended to them greetings and good wishes, the following pleasing program was enjoyed:

Greeting to the new pastor, from the Ministers of Portsmouth—Rev. L. H. Thayer.

Violin solo—Miss Helen McIntire.

Vocal solo—Mrs. A. J. Hayes.

Reading—Miss Mae Warren.

Vocal solo—Mr. Paul Nickerson.

Greetings from the Dyer district and the New Hampshire Conference—Rev. R. H. Huse.

Each number was listened to with the closest attention. Each solo and reading received accolades which were responded to happily by the entertainers.

Dr. Thayer was especially felicitous in his words of greeting, and Rev. R. H. Huse spoke in his own inimitable way.

The confuence of the ladies in the

receiving line were notably beautiful and presented a charming picture, while the costumes of the entire assembly were of the choicest shades of silks and satins, which added greatly to the scene. Mrs. Scott carried a huge bouquet, the gift of friends.

Among the members of the clergy present were Rev. A. J. Hayes and Mrs. Hayes of Kittery; Rev. L. H. Thayer and Mrs. Thayer; Captain and Mrs. Beach of the Salvation Army; Rev. W. P. Stanley and Rev. P. P. Moulton.

At the conclusion of the program a collation of fancy ices and wafers were served under the direction of Mrs. H. L. Hilton, head of the social department of the Epworth League.

The young ladies, attractively attired, who acted as waitresses were Misses Gertrude Briddle, Mae Warren, Gertrude Beyer Irene Johnson and Gladys Robinson.

This reception was given by the different societies of the church, the head of each society, being a member of the general committee, of which D. H. Crossley, president of the Epworth League, was chairman.

Rev. F. J. Scott, who has recently been appointed pastor of the First Methodist church in this city, has already given most convincing indications that he is a man who will carry on the important work awaiting him here, in a most efficient manner in all its branches. He delights his audience with his forceful expositions of Scripture. He is eloquent and imbues his sermons and talks with a fervor of spiritual power. His broadmindedness is also apparent in work which is being planned by him.

The members and friends of the First Methodist church are confidently expecting rich success to crown their labors under this new pastor.

Rev. F. J. Scott was educated in Toronto, Canada. He held an important pastorate in Canada, and was pastor in Massachusetts for four years.

The people of Portsmouth welcome this new Christian worker, and assure him that he has from them much support and encouragement in work with this people, which it is hoped and believed will result in distinct betterment to the community.

METROPOLITAN OPERA COMPANY

Metropolitan Opera House

Giulio Gatti-Casazza, General Manager

New York, March 23, 1914.

Gentlemen:— Since November, 1913, this Company has been using, exclusively, the Hardman Pianos. There have been eighteen of these instruments in constant use in the dressing rooms of the artists, in the orchestra, and elsewhere for practical work, besides a large number used by the artists in their private apartments, and it gives me much pleasure to express on behalf of this Company and also the artists taking part in the performances, the thorough satisfaction we all feel in these instruments.

The fine tone quality, fullness and splendid durability of these instruments are fully recognized by every one here, and it is very evident that they must be exceedingly well built to stand the usage to which they are subjected, owing to the extremely heavy demands which we make upon them. We shall start upon the coming season of 1914-1915 with complete assurance in regard to the unqualified satisfaction that the Hardman Pianos will give to us, and to our artists. Believe me, Very truly yours,

JOHN BROWN, Business Comptroller.
